7th Global Forum on TB Vaccines

Rio de Janeiro, Brazil

8 - 10 October 2024

The Working Group on New TB Vaccines (WGNV), IAVI, and the TuBerculosis Vaccine Initiative (TBVI), in partnership with the Ministry of Health of Brazil and the Brazilian TB Research Network (REDE-TB), are pleased to announce that the 7th Global Forum on TB Vaccines will be held in Rio de Janeiro, Brazil from 8 - 10 October 2024.

As a champion for global health and a leader in global health research and biomedical manufacturing, and also a country with a high TB burden, Brazil plays a pivotal role in the global TB response and is a valuable contributor to innovation, research, and knowledge. We are excited to bring the Global Forum on TB Vaccines to Brazil and, for the first time, to the Americas.

Please save the date to join the TB vaccine research community for this unique and important event.

LEARN MORE

TB remains the world's second leading cause of death from an infectious disease. New TB vaccines are essential to ending this devastating pandemic. The Global Forum on TB Vaccines is the world's largest gathering of stakeholders striving to develop new vaccines to prevent TB. It provides a unique opportunity to review the state of the field, share the latest research and findings, and identify new and innovative approaches to TB vaccine R&D, with the end goal of developing and deploying new TB vaccines as quickly as possible.
